

# EVERBOX

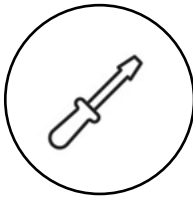

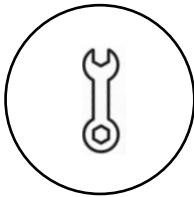

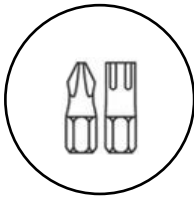

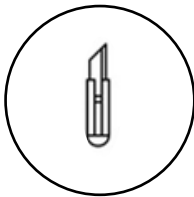

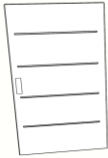

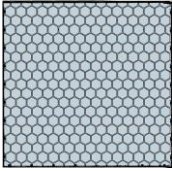

EVERBOX – 6X3

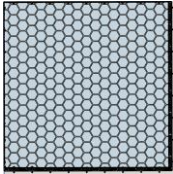

# Preparations:

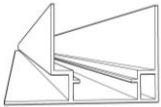

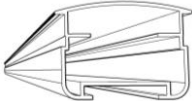

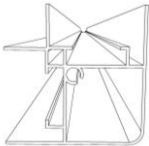

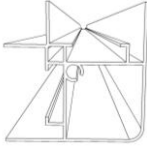

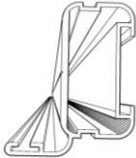

|   |                                                                                 |
|---|---------------------------------------------------------------------------------|
| 1 | The surface on which the warehouse will be built should be straight and stable. |
| 2 | 2 people are needed to assemble the warehouse.                                  |
| 3 | Remove the nylon coating from the parts, before construction.                   |
| 4 | Plan the location of the door in advance.                                       |
| 5 | Prepare the slope direction of the warehouse roof.                              |
| 6 | Go through the equipment list and make sure all the parts are there.            |

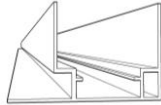

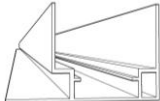

# Tool list:

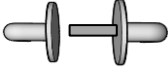

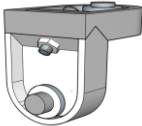

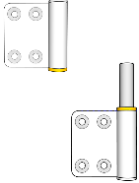

|                                                                                  |                                                                                  |                                                                                   |                                                                                   |                                                                                   |                                                                                    |
